

FOR IMMEDIATE RELEASE

PorchLight Rental Service Expands Their International Destination Assistance Service Department

STOW, OH, September 22, 2015 – PorchLight Rental Service has expanded their international destination services department with the addition of team members and by extensively growing their network of destination service specialists and licensed real estate agents who provide settling in services throughout the United States and Canada. PorchLight has experienced a heightened demand for international in-bound relocation services and has therefore, moved to meet these needs by broadening overall services and capabilities for this fast growing expat community. PorchLight's development of an electronic arrival guide has been one stand-out item clients are embracing as a proactive approach to helping assignees start to familiarize themselves with information they'll need as they work with PorchLight in obtaining a social security number, driver's license, opening a new bank account and advancing funds for a security deposit and any other fees required to secure a new home. Guidance with setting up school appointments, acclimating families to their new home environments and communities is also provided as a part of PorchLight's Destination Service offerings. By managing the whole process from start to finish, PorchLight ensures everything is taken care of before the transferee begins work.(not necessarily before work starts. They are usually working and incorporating DSP)

PorchLight feels this is the best approach for making the move successful for not only the transferees and their families but for their employers as well. Without the help of destination settling in assistance, transferees are often left feeling overwhelmed and unable to transition as easily.

"We pride ourselves on the fact that PorchLight manages the entire rental home finding and settling in process for the transferee and we are very pleased to have the client demand that affords us the opportunity to grow our Destination Assistance branch of services," says Diane Ayres, President. "Our personal approach with the initial contact from a PorchLight International Rental Account Manager combined with our unique use of destination specialists **and** local real estate agents, offers the highest level of service and expertise for the transferee.

PorchLight Rental strategically works within the stipulations of relocation policies to assist transferees with their rental housing needs. Since 2003, the women owned firm has supported companies from around the globe with their rental and destination service needs, both domestically and worldwide.
